

School Board

Board/Staff Communications

The Superintendent of Schools is the liaison between the staff and the Board of Education. As such, the Superintendent will establish appropriate avenues for Board/Staff communication.

Communications or reports to the Board from staff members and staff organizations will be submitted to the Board through the Superintendent. Staff members will communicate with their individual building administrators, who in turn will communicate with the Central Office and the Superintendent. The Superintendent will then communicate with the Board of Education.

Effective communication between the Board and the District staff is necessary for facilitating proposals for the continuing improvement of the educational program and the proper disposition of personnel problems.
