

**School Board**

**School Board Memberships**

The Board of Education may join any association or organization that will help Board members improve their leadership of the District or that it believes is relevant and helpful to conducting District business.

Such memberships may furnish the Board members with periodicals, in-service training, and familiarization with new educational programs and practices.

All membership renewals are subject to annual review, and nothing in this policy will obligate the Board to maintain any membership that it wishes to discontinue.

Adopted:                    12/13/00
